The Poultry Industry.
When the state statistician at Jefferson City completed his compilation of the surplus products of Missouri recently, he discovered that the greatest gain of the year was in poultry. His returns of shipments showed that the Missouri hen had come to her own. One hears a great deal these days about Missouri's booming zinc and lead industries. All that is claimed for these wealth producing factors is well founded. But what tribute is due the hen when it is realized that the poultry shipped by rail in Missouri last year exceeded in value the zinc ore, while the poultry in the state of Missouri, better than in any other state, was the surplus after the home consumption had been satisfied. And it is claimed that fully half the chickens and eggs produced in the state do not find the market by rail.
The figures are amazing. The poultry product shipped and sold last year amounted to over 70,000,000 pounds. It realized the producers at first price \$1,800,000. The eggs shipped were 33,335,000 dozens, and they brought to the people who gathered them from the nests \$3,338,000. Poultry and eggs together yielded to the farmers of Missouri, after their own tables had been supplied, \$3,298,000. Why! The two great items of agricultural gain for Missouri last year, cattle and hogs, realized respectively, \$4,000,000 and \$3,000,000. The poultry did, and they consumed the corn crop of 100,000,000 bushels, and kept a considerable proportion of the farmers of the state doing chores from daylight to dark all winter. Where is the farmer who can figure the cost of his flock of chickens? The poultry product is the "caviar" of the farm.
The poultry product of Missouri gained 20,000,000 pounds last year, which meant \$1,800,000. And the product this year will secure a notable advance, the buyers and shippers say. Central Missouri Republican, Booneville.

The Burlington's New Observation Vestibule Trains.
The most complete daily trains in the West, for all classes of travel, are just out of the Burlington's shops. These are trains No. 15 and 16, between St. Louis and Kansas City, St. Joseph, Colorado and Montana. These are vestibule through trains with the handsome wide observation Pintsch lighted vestibules. The chair cars have oak and mahogany finish. Pintsch light and courteous free porters' service. The latest production of compartment sleepers, between St. Louis and Kansas City, offer the exclusive service of drawing rooms without any additional berth charges. These are the only vestibule trains from St. Louis to Kansas City and Denver. These are also the trains from St. Louis, St. Joseph and Kansas City for all travel via the Burlington's short Northwest Main Line, to Montana, Washington, Tacoma, Seattle, etc.
